## CHARMING ONE LEVEL

Neat and petite, this one-story home has a clean roofline that is accented with two gables, which gives this home an ageless quality. The floor plan lives large, with an extended two-vehicle garage on one side and the option of two or three bedrooms. Fluid spaces maximize the efficiency and comfort of the public rooms.

The kitchen is set off by a long island to create supplemental storage and a command center for the family. The open great room has a cathedral ceiling and adds flexibility and a relaxing ambience to the home. It is open to the dining area and kitchen and has a large fireplace. Sliding doors in the dining room provide access to the patio. You choose whether you want to furnish the front room as a bedroom or a den. The master suite lies to the rear of the plan and features an optional tray ceiling and bath with walk-in shower and walk-in closet.
