SECOND FLOOR PLAN

FIRST FLOOR PLAN

48'-6"

55'-8"

FINE LIVABILITY

This two story house plan has a great deal of space for that large family. Nine foot ceilings on the first floor provide fine livability on the inside.

The entry foyer reveals a stairway to the second level, plus formal areas: a living room and a study/dining room. For more casual times, use the great room with a fireplace at the back of the first floor. The nearby dining nook and the large kitchen with an island have access to the rear yard through sliding glass doors.

The second floor contains three bedrooms and a loft that could also be an optional fourth bedroom. The master suite has a vaulted ceiling with a large master bath and attached walk-in closet. The additional two bedrooms have the use of a hall bath. Also, on the second floor is a laundry room tucked away in the front of the home.

Total Area 2765 Sq. Ft.

Width 55'-8" Depth 48'-6"
Height 26'-4"

(815) 468 - 6573
