

Suttons Bay

COZY OPEN LIVING

Need a home office? Then flex this home plan from a bedroom to a den. Put your desk near the window, and enjoy the sunlight while you work. If your kids need more space, put in a bedroom instead. Siblings can share the nearby bathroom and enjoy having built-in closets with room for storage.

For a cozy lunch, pull up a few barstools to the kitchen island and chat over sandwiches. Then, move out to the family room. Entertain guests with some music, and enjoy the acoustics of the cathedral ceiling. After a long day at work, soothe your own nerves with some fireside relaxation and time with the family.
